the art of creativity

Since 1972

COMPANY PROFILE

Sampat Mutha

Founder & Director
1972 - 2009

ABOUT US

We, at Rabbit Stationery Pvt Ltd take great pride in introducing ourselves as the pioneering manufacturers and exporters of stationery products and creative consumables in India. Hence, "Atmanirbhar" is a concept we have been following since inception. This has definitely given us an edge in the global market.

OUR STORY

Over the years, Rabbit Stationery has been a powerhouse of creativity, innovation and quality. Starting with a comprehensive array of mainstream stationery products in 1972, our founder Mr. Sampat Mutha, lent a strong vision and strategic roadmap to the company that has helped to make the company what it is today.

OUR PRODUCTS

The latest addition to our bouquet of offerings is the category of 'creative consumables' where we have improvised and mastered the art of making non-drying dough, light weight clay, slime and sand among other modelling materials, thus, fuelling the imagination of children and hobby enthusiasts worldwide.

HOW ARE WE DIFFERENT

Our Expertise over 53 years enables us to strive constantly to raise our bars of efficiency and quality. All care is taken in our four modern and fully - equipped production units in Pune, India, to meet global standards of manufacturing - all our products are non-toxic, environment-friendly, conform to the EN-71 (3) norms and the CE mark. Packaging material used for these products is recyclable, mostly limited to the purpose and carries the EAN-13 bar coding.

OUR VISION

At Rabbit Stationery, we finally aim for one thing - to bring a smile of satisfaction on the face of each of our customers. We hope to earn this through competitive pricing and excellent designing innovation and service levels. We hope that through our globally ambitious and creative product portfolio we are able to make a lasting impression in the hearts and minds of our customers.

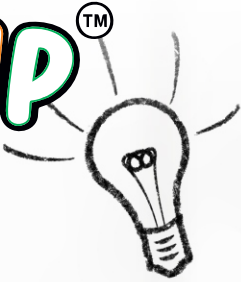

For updates of our latest Product Range do visit us at www.rabbitstationery.com
